3. If the Google Chrome browser is set up under another person's name it will take the student to the wrong Google Classroom. You will need to add the student's account by Clicking on the current account in the top right hand corner of the page.

4. A drop down menu will appear. Select (Add another account)

5. Add the student email. (<u>student.name@education.nsw.gov.au</u>). This should take the student to their Google Classroom. This may need to be repeated each time a student accesses their account.
